

Pedialyte® Electrolyte Water Drink

Electrolyte Water

AVAILABLE AT RETAIL ONLY

Usage

PEDIALYTE® ELECTROLYTE WATER DRINK is designed for hydration purposes only, not mild to moderate dehydration. It has 3 key electrolytes and zinc for immune support.

Features

- Zero sugar.*
- Zinc for immune support.
- Has 3 key electrolytes for hydration, including sodium, potassium, and chloride.
- One liter provides: sodium, 30 mEq; potassium, 10 mEq; chloride, 20 mEq.
- No fruit juice.
- No artificial colors.
- Non-GMO.†
- Kosher, halal, gluten-free.

Precautions

- No mixing or diluting is necessary or recommended.
- Not for children under 5 years of age for mild to moderate dehydration due to vomiting and diarrhea.

Availability

	List No.	NDC Format Code
— 33.8-fl oz (1.0-L) Bottle; 4/case

Pedialyte® Freezer Pops

Electrolyte Solution

AVAILABLE AT RETAIL ONLY

Usage

PEDIALYTE FREEZER POPS replenish vital fluids lost due to diarrhea and vomiting to help prevent dehydration* in children and adults. Scientifically designed balance of electrolytes and glucose for fast rehydration.

- Use under medical supervision for the dietary management of mild to moderate dehydration during diarrhea and vomiting.

Features

- Medical-grade hydration.
- Designed to promote fluid absorption more effectively than common household beverages, such as some sports drinks, juice, and soda.
- Has glucose to promote sodium and water absorption.
- Available in a variety pack (Grape, Blue Raspberry, Cherry, Orange).
- Low osmolality.
- Contains no fruit juice.
- Pedialyte is the #1 doctor-, pediatrician-, and pharmacist-recommended brand.
- Kosher, suitable for lactose intolerance.

Precautions

- Not for use for children under 1 year of age.

- No mixing or diluting is necessary or recommended.

PediaSure® 1.5 Cal

Complete, Balanced Nutrition®

Usage

PediaSure 1.5 CAL is a higher* caloric density product designed to meet the higher energy requirements of pediatric patients who are at risk for malnutrition, require a higher caloric density, or have fluid restrictions. It provides a source of complete, balanced nutrition for children 1 to 13 years of age.

- For oral or tube feeding.
- May be used as a sole source of nutrition or as a supplement.
- Use under medical supervision.

Features

- Provides 100% or more of the Dietary Reference Intakes (DRIs) for protein and 25 essential vitamins and minerals
 - in 1000 mL for children 1 to 8 years of age.
 - in 1500 mL for children 9 to 13 years of age.
- Excellent source of high-quality protein designed to meet the acceptable macronutrient distribution range of protein for children 1 to 13 years of age.
- DHA (32 mg per 8 fl oz) and lutein to support the brain and eyes.^{1,2}
- Vitamin D, calcium and phosphorus for strong bones.
- Good source of antioxidants (vitamins C & E and selenium) to support the immune system.

- No artificial growth hormones.[†]
- Kosher, halal, gluten-free, suitable for lactose intolerance.

Precautions

- Not intended for infants under 1 year of age unless specified by a physician.
- Not for IV use.
- Not for children with galactosemia.
